Recent Work:

Golfweek: [Google Play](#) / [iTunes](#) / [mobile web](#)

Golfstat Live: [Google Play](#) / [iTunes](#) / [mobile web](#)

TheGolfwire: [website](#)

Technical Proficiencies:

- Javascript - AngularJS, jQuery, Node, Express, Cordova/Phonegap
- Python - Django
- PHP, HTML5, CSS3 - Bootstrap
- Linux, nginx, MySQL, git, vagrant

Professional Experience:

Golfweek: Web Developer

Feb. 2013 - Present

Created web applications [Golfweek](#) and [Golfstat](#) using jQuery and AngularJS to be deployed on mobile platforms using Phonegap. Worked around inflexible existing infrastructure to implement data integration. Research and apply web technologies such as ExpressJS and Django to create web applications such as thegolfwire.com and future golfweek.com update. Perform iTunes and Google Play user agent duties dealing with app submission to respective stores.

Nassau Lens Southeast: Operations Lead

Sept. 2007 - Feb. 2013

Lead and managed operations and local customer service in daily order processing on an Oracle system. Designed a web based shipment consolidation program using php as well as a web based Internal documentation form using php and jQuery. Performed inventory control and participated in regular quality assurance testing of new Oracle features.
